# TIMELINE FOR IDEA DEVELOPMENT TEAM ETHERNAL

OUR  
PROTOTYPE

## MADE STRATEGY AND DIVIDE PROJECT INTO STAGES

We divide the different tasks to each members of our team and work on upon it to look forward to the resources we got and how we can use them and set the goal (like hardware , software , research and connectivity) .

01

## IMPLEMENTATION

We implement the research technology into prototype and making the **business model** and work upon the production cost of our project.

02

## RESOLUTION

We work upon the suggestion and queries of the judges like **pestel model ,service cost,** maintenance and challenges after implementation of our project.

03

## FUNCTIONALITY

We have developed a **cost effective** IOT base smart device which is **Flexibility** to fullfills the problems which are there in the existing models available in the market and fullfills its task
